# The Lost Reindeer

Doug Hyde

The new collection from **Doug Hyde** has been lovingly created by the artist over a period of several years.

Including six beautiful collectable editions and a fabulous new book combining fine art and folk tale, it introduces us to a whole new cast of irresistible characters we have not seen before, yet we find ourselves immediately among friends.

Come into the gallery to view a series of beautiful original pastels which take us further into the world of *The Lost Reindeer*.

Nature paints so many  
breathtaking pictures...  
...the artist can only be inspired.

## How it all began ...

Like many of us I am utterly captivated by the monochromatic beauty of the Arctic Wilderness and for me, the inaccessibility only adds to its aura of magic and mystery.

The overwhelming sense of history and legend, the unique landscape, the extraordinary wildlife and the phenomenon of the Northern Lights makes it one of nature's greatest works of art.

## Deluxe Collectors Editions ...

These luminous night time scenes have been exclusively created as deluxe collector's editions. Larger than the other pieces in the collection, their desirability is increased by their extremely low edition size of 75.

The pieces can stand alone or work beautifully as a statement pair.

# The Lost Reindeer

This beautifully presented collectors' book, available as an open and a limited edition, shows a selection of images from the collection along with Doug's thoughts about their origin and what the collection means to him personally.

It includes the artist's take on the simple story of one complete cycle of an Arctic day seen through the eyes of a small reindeer that has lost its way.

Although creating a story may seem to be a new departure for Doug, in some ways it is simply a natural progression, as his pictures have always had a story attached to them.
