CHRIS &  
STEVE ROCKS

Original Paintings

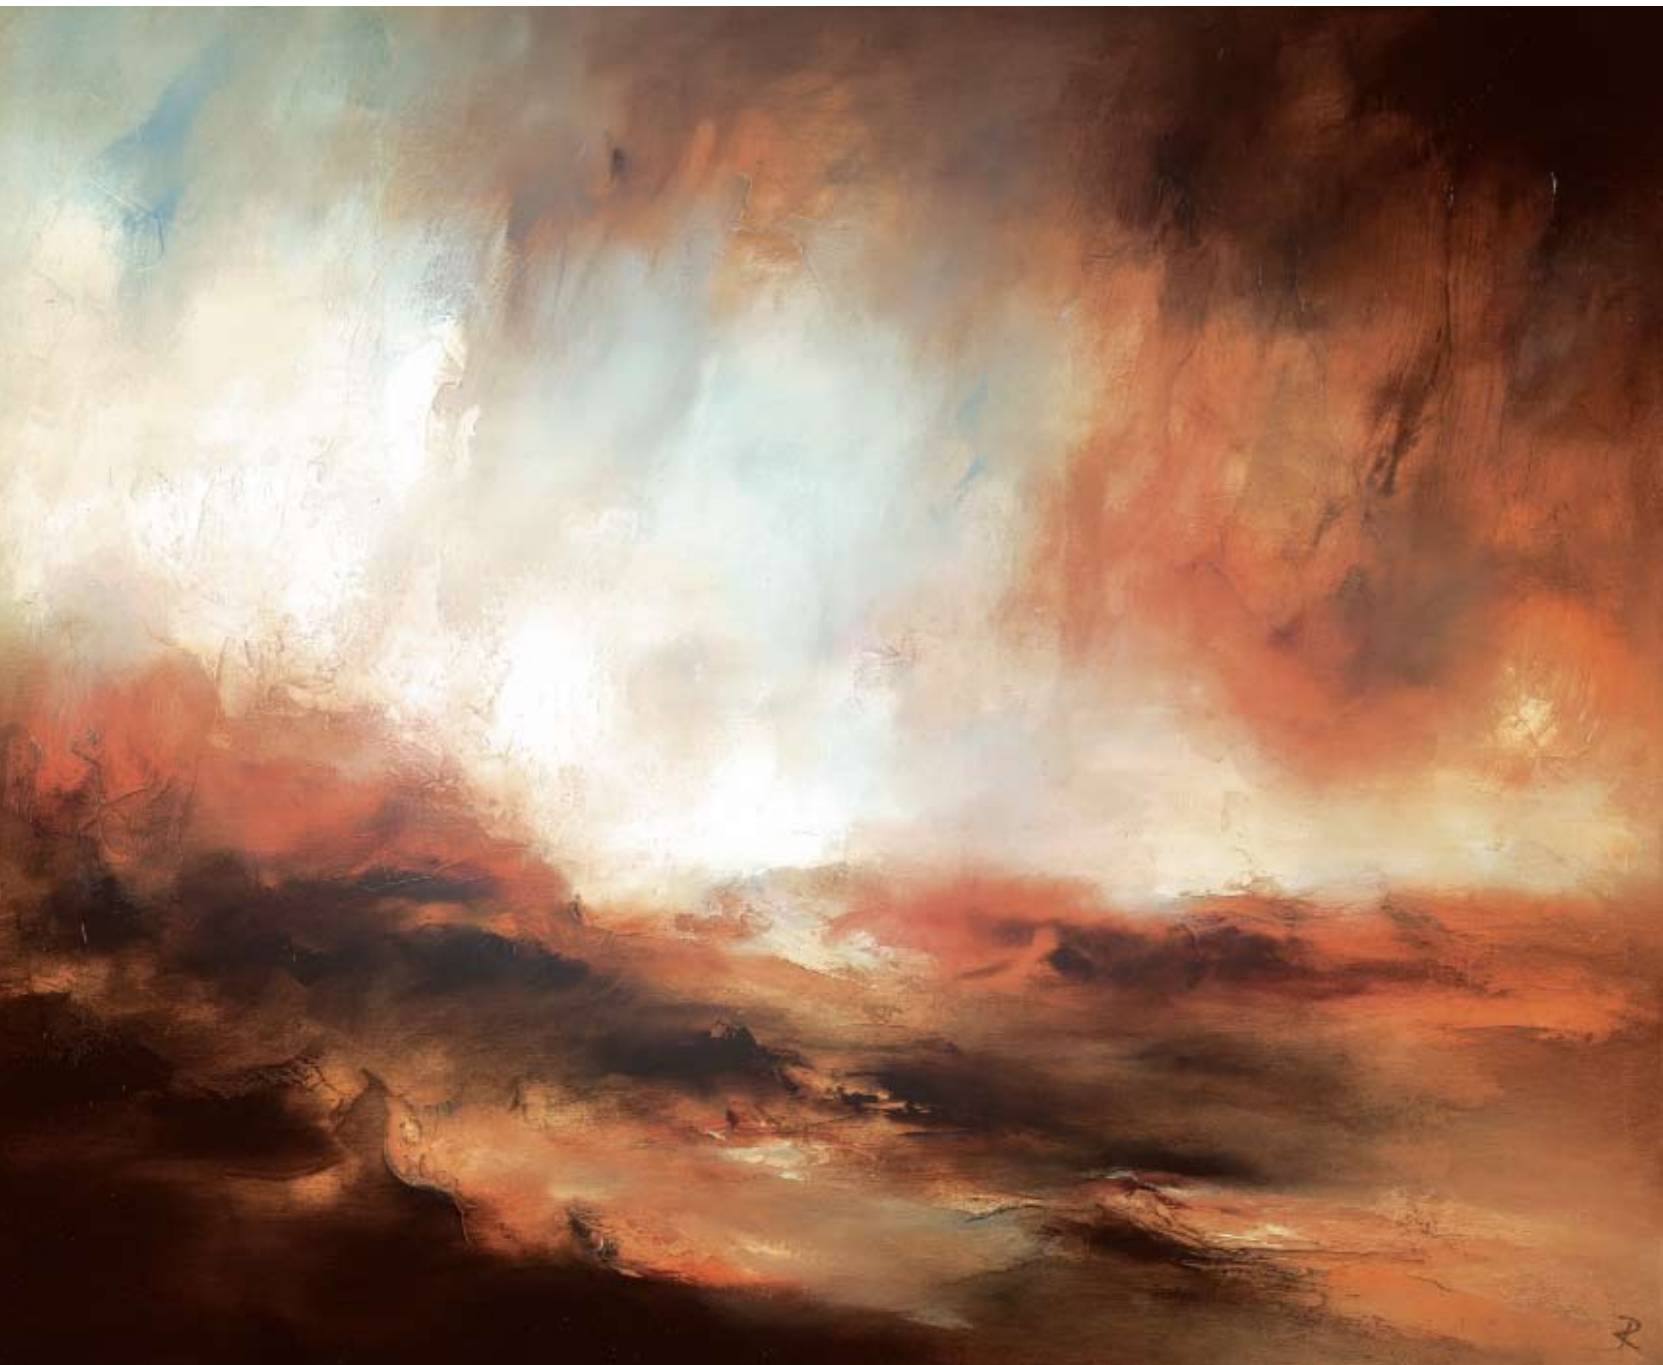

R

While the work of the Rocks brothers appears abstract, it is in fact highly representative. Each image is inspired by the lie of the land - the contours and colours rather than the literal details of the scene - so has its roots in reality rather than imagination. "Creating this free interpretation of the landscape is both challenging and liberating. We paint what we see but it is an intensely personal shared vision, our new collection of paintings are based around our travels throughout the North of England and Scotland and are our interpretation of what we saw and felt from these beautiful places, a reminder of the power of nature and an escape from the everyday stresses of modern life..."

*These monumental new compositions from Steve and Chris are breathtaking in their scope and ambition. Their atmospheric palette and extraordinary energy combine with their sheer size to create an awe-inspiring impact. Prices range from £795 to £3,995 for a framed original painting.*

*Scotland is a place of endless inspiration for us.  
Our travels through the Highlands take us to  
the barren Rannoch Moor and through the eerie  
valley of Glencoe with its haunting atmosphere,  
right up to Ben Nevis and the top of Aonach Mor.*
