ALESSANDRO
PAGLIA

Hailing from Milan, the Italian capital of design, Alessandro Paglia has always been fascinated by the sheer elegant simplicity of colour combinations, whether it be in the fine arts, design, fashion, film or photography.

Many of Paglia's subjects are iconic pieces in terms of design history or popular culture. His latest collection includes characters from the world of cartoons presented in a whole new way. For this dazzling quartet, he has created a unique printing method, using a hand embossing technique with gold leaf finish to create a series of striking editions. Due to the handmade nature of each piece there are slight differences to every character, making each edition highly collectable.
